

# Table of Contents

<b>Chapter One Coordinate Geometry.....</b>	<b>1</b>
Analytic Geometry.....	1
Vectors .....	2
Coordinate Axes.....	2
Basis for Two Dimensional Space ( $R^2$ ) .....	3
COGO Operations.....	5
Computational Error .....	5
Forward.....	12
Polar Coordinates.....	13
Inverse.....	14
Math/Science System.....	15
The Surveyor's System.....	16
Rectangular/Polar Conversions.....	18
Line-Line Intersections (Brg-Brg) .....	19
Line-Line Intersections (Dist-Dist).....	20
Line-Circle Intersections.....	22
Circle-Circle Intersections .....	24
Problem 1.1 Line-Line Intersection (Brg-Brg) .....	26
Problem 1.2 Line-Circle Intersection.....	27
Problem 1.3 Circle-Circle Intersection .....	31
 <b>Chapter Two Stationing the Alignment.....</b>	 <b>34</b>
Definitions and Purpose of the Alignment.....	34
Stationing the Alignment .....	34
Layout and Use of a Simple Alignment.....	35
Measurements for the Plan View .....	36
Profile Leveling .....	39
Plotting the Plan View of the Plan and Profile Sheet .....	39
Plotting the Profile View of the Plan and Profile Sheet.....	39
Importance of Alignment and Grade .....	41
Definition of Grade and Gradient .....	41
Relationship between Percent and Station.....	42
 <b>Chapter Three Horizontal Circular Curves.....</b>	 <b>43</b>
Geometry of the Circular Curve .....	43
Formulas for Curve Elements in terms of I and R.....	44
Four Fundamental Properties of a Circular Curve.....	46
Degree of Curve.....	50
Highway Definition .....	50
Railroad Definition .....	51
Layout of the Circular Curve .....	52
Method of Radial Stakeout .....	52
Method of Stakeout by Deflection Angles.....	53

Moving up on the Curve .....	57
Compound Curves .....	59
Vertex Angle Method .....	60
Solution by Traverse .....	60
Reverse Curves .....	62
<b>Chapter Four Spiral Curves .....</b>	<b>65</b>
Drawing a Curve System .....	66
Design of Curve System containing Spiral Transitions .....	67
Elements of the Simple Spiral (Notation) .....	68
Degree of Curve of the Simple Spiral .....	70
Radius of the Spiral .....	70
Spiral Angle .....	72
Computing Chord Distances on the Spiral .....	74
Layout from the TS or ST Stations .....	75
Layout from the SC or CS Stations .....	75
Moving up on the Curve .....	76
Problem 4.1 Computing Spiral Elements and Spiral Layout Tables .....	76
Coordinates on the Spiral Curve System (COGO) .....	79
Problem 4.2 Computations on the First Path .....	79
Problem 4.3 Computations on the Second Path .....	81
Problem 4.4 Computations on the Third Path .....	82
<b>Chapter Five Vertical Curves .....</b>	<b>84</b>
The Algebra of the Quadratic Function .....	84
Geometry of the Parabola .....	86
Elevation Curve .....	89
Grade Curve .....	90
Rate of Change Curve .....	91
Relationship between Curves .....	92
Typical Computations on Equal Tangent Vertical Curve with Known Length .....	93
Unequal Tangent Vertical Curves .....	96
Unequal Vertical Curve Problem .....	98
<b>Chapter Six Vertical Curve Fitting .....</b>	<b>100</b>
Review: Geometric Relationships between the Curves .....	101
Case I: High or Low Point Fixed; PVC Station and Elevation Known .....	102
Case II: High or Low Point Fixed; PVI Station and Elevation Known .....	103
Case III: Point on Curve Fixed; PVC Station and Elevation Known .....	105
Case IV: Point on Curve Fixed; PVI Station and Elevation Known .....	106
Case V: Fit Sag Curve to a Grade .....	108
<b>Chapter Seven Route Design Elements .....</b>	<b>113</b>
Superelevation .....	115
Equilibrium Condition .....	118
Non-Equilibrium Condition .....	119

Superelevation Conditions .....	119
Transitions.....	121
Stopping Distance .....	123
Perception and Brake Reaction Distance .....	123
Braking Distance.....	124
Passing Sight Distance for 2-Lane Highways.....	125
Stopping Distance vs. Sight Distance .....	128
Sight Distance on Horizontal Curves.....	128
Sight Distance on Crest Vertical Curves .....	130
Problem 7.1: Sight Distance on Crest Curve .....	134
Problem 7.2: Find Length of Curve to accommodate Stopping Sight Distance..	134
Sight Distance on Sag Vertical Curves .....	135
Headlight Beam Distance .....	135
Rider Comfort .....	137
Drainage.....	139
Appearance .....	139
Sight Distance at Underpass Structures .....	140
The Measurement of Data for Route Design .....	143
<b>Chapter Eight Cross-sections and Volumes .....</b>	<b>144</b>
Use of Abney Level .....	146
Cross-section Areas. ....	147
Area Calculations.....	148
The Level Section .....	151
The Three Level Section.....	151
Special Three Level Sections.....	153
Five-Level Section .....	154
Side-Hill Section.....	155
Irregular Section.....	155
Volumes (Earthwork).....	156
Average End-Area .....	156
Prismoidal Formula.....	157
Mass-Haul Diagram .....	159
<b>Chapter Nine Slope Staking.....</b>	<b>162</b>
Cross-section Areas .....	164
Determination of Existing Ground.....	164
Slope Staking .....	165
Grade Rod .....	165
Ground Rod.....	165
Example in Cut Section .....	167
Clearing Stakes .....	168
Reference Stakes.....	168
Right of Way.....	169

<b>Chapter Ten Construction Control.....</b>	<b>170</b>
Background.....	170
Horizontal Control.....	172
Vertical Control.....	180
<b>Chapter Eleven Topographic Mapping.....</b>	<b>184</b>
The Sparse Surface Model.....	184
Sampling.....	185
Visual Perception.....	193
Triangulated Irregular Network (TIN).....	198
Breaklines.....	203
Interpolation.....	204
Conclusions.....	205
Kriging.....	206
Least Squares Collocation.....	211
Landform.....	212
Small Scale Mapping Considerations.....	213
Local Variation.....	214
Mapping Accuracy Standards.....	215
U.S. National Map Accuracy Standards of 1947.....	215
NSSDA Horizontal Accuracy Statistic.....	217
NSSDA Vertical Accuracy Statistic.....	218
Analysis of the NSSDA Vertical Statistic.....	219
Actual Error Distribution at Large Scale.....	220
Ideal Check Point Sample Size.....	221
Large Scale Topographic Survey Design.....	222
Introduction.....	222
Background.....	223
Effect of Sampling Density.....	227
Profiles.....	229
Applications.....	232
The Drain.....	232
The Forested Hillside.....	234
Conclusions.....	236
Attachment A – Triangulation Study.....	238
Bibliography.....	245
Index.....	249
