

# Out of Print? Not Out of Reach!

**Has your favorite text gone out of print, never to be revised and published again? You've worked hard to develop a dynamic and engaging course for your students. Instead of reworking your tried and true lesson plans, let XanEdu help.**

**XanEdu provides flexible, affordable, and copyright-compliant course materials solutions. Best of all, XanEdu's expert copyright clearance services allow you to include practically anything in your course materials including cases, articles, textbook chapters and more!**

**XanEdu can reprint entire out-of-print books! We obtain copyright permission to publish previously printed books as course packs or custom textbooks in print, or digitally.**

## Publish an Out-of-Print Book as a XanEdu CoursePack:

- ⑥ Your XanEdu CoursePack can contain the out-of-print materials only, or can be combined with chapters from another text, journal articles and other copyrighted materials to create a rich anthology for your course.
- ⑥ Print course packs can include a table of contents, pagination, and bibliography, and a variety of production options including your choice of binding.
- ⑥ The copyright clearance and production process takes an average of 2 to 4 weeks. If you prefer, XanEdu can request permission to produce your course pack digitally for students to access online.

## Publish an Out-of-Print Book as a Copley Custom Textbook:

- ⑥ We can reprint the out-of-print materials only, or you can create your own custom anthology by including other copyrighted materials and even your own original work.
- ⑥ Whatever your requirements, our staff will provide the copyright research, design and production services necessary to publish a high-quality textbook.
- ⑥ Professionally published custom materials look and feel like traditional textbooks and take an average of 60 days from start to finish.
