Queen Hatshepsut

Queen Hatshepsut (ca 1508–1458 B.C.) ruled Egypt as pharaoh during the Eighteenth Dynasty. She is known for re-establishing important trade routes. She masterminded the expansion of Egyptian trade with Punt, a kingdom in eastern Africa, and supervised the building of the magnificent temple at Deir el-Hahri.
Did You Know?

There were multiple drafts of the Bill of Rights. Leaders crossed out sections they did not agree with and added new sentences. James Madison did much of the rewriting. At first, Madison’s original Bill of Rights had 19 amendments. That draft was presented to Congress in June 1789. The House of Representatives removed two of the amendments. Then, the list was cut down to 12 amendments. These 12 amendments were approved by both the House and Senate in September 1789. The Bill of Rights was sent to the states for ratification. Two of the amendments were rejected by the states, but the remaining 10 were approved. Those ten amendments were added to the Constitution.
